M.V. Tynedale the original land-based cruise ship, first took to the oceans in 1992. Since then it has been copied by many, but bettered by none. These ever-popular cruise breaks benefit from years of experience and investment of time, money and innovative ideas that create an atmosphere of actually being at sea on a cruise ship. The experience starts with the issue of a passport which gets stamped at each port of call, providing you with a great, permanent memento of your holiday cruise.
